**MEMORANDUM FOR: Deputy Director (Intelligence)**

**SUBJECT: Orientation Speech**

1. Bob, I have made the attached draft speech available to a number of interested officers for criticism. Improvements have been suggested which I have not yet incorporated but had planned to do so this week-end. However, Larry Houston (see his comments attached) and Sherman Kent's (copy which you have) play havoc with the first eight pages. In view of their strong feeling, unless somebody higher up thought like I did, this has to come out.

2. You may wish to take out of this what may be useful and incorporate it into your speech, "Coordination and Services of Common Concern."

3. If, however, you do not want to do that, what I will do is to beef up the sections from about the middle of page 6 through paragraph 24.
